PAPER REVIEW FORM

Paper ID	CCIT-2024_384
Paper Title	Advancements in AI-Driven Skin Cancer Detection: A Comprehensive Review of Deep Learning Techniques for Early Intervention
Review Status	**Accepted with Modification**
Category(if accept)	**Full Research Paper**
Consolidated Content review comments	• **Paper should strictly formatted according to the standard format** • **Detailed explanations may be provided on the concept of the proposed system and results; rather than a literature review of exiting system or performance analyses or case study** • **The Paper should have more emphasis on novel technology/method proposed**

SI No	OVERALL RATING: (5= EXCELLENT, 1= POOR)	5	4	3	2	1
1.	Structure of the paper		X			
2.	Standard of the paper	X				
3.	Appropriateness of the title of the paper		X			
4.	Appropriateness of abstract as a description of the paper		X			
5.	Appropriateness of the research/study methods	X				
6.	Relevance and clarity of drawings, graph and table			X		
7.	Use and number of keywords / key phrases		X			
8.	Discussion and conclusion	X				
9.	Reference list, adequate and correctly cited	X
